

Ms. Lila Feisee

Lila Feisee is Vice President for International Affairs at BIO and has been with BIO since June of 2000. As BIO's Vice President for International Affairs, Lila is responsible for oversight of all global regulatory issues. Specifically those issues pertaining to key markets, and in multilateral forums such as APEC, ICH, WHO and the like.

Prior to coming to BIO, Ms. Feisee was a patent examiner at the US Patent and Trademark Office in the area of monoclonal antibodies and recombinant proteins, and before that Ms. Feisee was a bench scientist at the National Institutes of Health Laboratory of Genetics, working on viral and human oncogenes. Ms. Feisee is responsible for coordination of BIO's ICH activities.

She has a B.S. degree in Biology from the University of Virginia and a post graduate degree in Genetics from George Washington University School of Medicine.
