

Dr. Dorothy Toh

Dr. Toh is currently the Assistant Group Director of the Post-market Cluster, at the Health Products Regulation Group, Health Sciences Authority, Singapore. The Health Products Regulation Group ensures that drug, innovative therapeutics, medical devices and health-related products in Singapore are regulated to meet standards of safety, efficacy and quality. Dr. Toh's key interests are in the area of pharmacovigilance and pharmacogenetics.

Her prior appointments were:

- * Director for Vigilance & Compliance Branch, which administers the national ADR monitoring programme and together with her team, are responsible for the monitoring of the safety profile of marketed health products to ensure that the continued benefit-risk profile of products on the market remain favourable.
- * Regulatory consultant with the Clinical Trials Branch, which has regulatory oversight over clinical trials on health products in Singapore and conducts pre-market safety assessments for investigational health products.

Dr. Toh worked at pharmaceutical multinational companies prior to joining HSA in 2003. She graduated from the Department of Pharmacy, National University of Singapore, Masters in Public Health from the University of Newcastle and PhD in Pharmacology / Pharmacogenetics from the University of Sydney.
