

**Ms. Shirley Pan**

Ms. Pan is senior technical specialist at the TFDA, Chinese Taipei. She has worked for the Department of Health since 1998, starting as an assistant technical specialist in the Bureau of Pharmaceutical Affairs.

Since then, Ms. Pan's positions have included work on generic drugs, new drugs, and clinical trial management. She has been involved in many regulations such as regulation of bioavailability and bioequivalence studies, initiation of the therapeutic inequivalence reporting system, establishment of BA/BE inspection program, regulations for good clinical practice, and regulation for drug shortage management.

Prior to joining the TFDA, Chinese Taipei, Ms. Pan was a pharmacist at the hospital. She holds a Master's degree in Pharmacology and a Bachelor's degree in Pharmacy.
