

Dr. Kevin Moore

Dr. Moore currently holds the position of Sr. Manager, Pharmacopeial Collaboration at the USP.

Dr. Moore's primary function is to manage technical and scientific aspects related to USP's harmonization and collaborative activities with global pharmacopeias and regulators.

Specific responsibilities include managing USP's technical activities in the Pharmacopeial Discussion Group (PDG), coordinating standard development with individual pharmacopeias for prospective harmonization, collaborating with WHO through the International Meeting of the World Pharmacopeias, and supporting ICH initiatives through USP's observer status to the ICH Assembly.

Previously, Dr. Moore worked for USP as a Scientific Liaison and Manager for Pharmacopeial Harmonization in the Excipients Group. Dr. Moore holds a Ph.D. in Inorganic Chemistry from the University of Pennsylvania and a B.S. in Chemistry and Biology from LeMoyne College.
